Popular Science Monthly

INDEX

Volume 89—July-December, 1916

AERONAUTICS

	Page
Yachting in the Air	22
Aeroplane Dreadnoughts	75
Torpedoing a Submarine from an Aeroplane	323
The Wastage of Flying Machines in the Great War	377
War Progress in Flying	523
Testing the Air-Fighter's Nerve	580
Testing the Lifting Capacity of Balloon Fabric	586
Introducing Our First Anti-Aircraft Gun	657
The One-Man Aeroplane Which a German Boy Is Building	695
The Sentinels of the Sky Above the War Zone Trenches	839
Making the Aeroplane Generate Its Own Power for Wireless	842
Faster Than the Fastest Express Train	865

AGRICULTURAL SCIENCE

	Page
An Instrument for Plucking Flowers	19
A Workshop on Every Farm	55
A Flower Bed on top of a Rock	56
A Unique Garden-Hose Holder	56
Conelike Flower-Holder in a Brick Wall	63
Filling Trenches by Machine	94
The Milk-Can Trolley	100
Chickens Feed Themselves on the Run	110
Measuring Rainfall on the Farm	160
Uncle Sam Says Miraculous Wheats Are An Old Delusion	166
Threshing by Night Under Electric Light	166
Why the Gasoline Engine Keeps the Farmer Boy at Home	175
Hitching the Mower to the Farm Automobile	182
Accelerating the Fruit-Picker with a Picking Harness	185
A New Garden Duster Which Uses Dry Spray	195
Plants on National Forest Ranges Which Kill Cattle	252
A Giant Cypress Tree Village in Paris	267
A Painless Way of Killing Chickens	294
A Simple Home-Made Milking Stool	299
Chick Mash Box	301
Improving the Hog's Table Manners	306
Uses for Wire-Glass on the Farm	308
Raising Parasites to Fight Pests	368
The Floating Vegetable Gardens of Mexico	384
A Garden Tractor which Does Everything but Mind the Baby	410
Rolling, Harrowing and Seeding with One Machine	417
A Weed Destroyer from a Spoon and Broom-Handle	468
A Portable Colony Poultry House	476
A Cozy Southern Farmhouse	479
An Easily Made Self-Locking Device for Barn-Doors	614
A Combined Farm Implement Shed and Machine-Shop	640
The Largest Duck Farm in the World	662–3
The Handiest Barn Ever Built	675
A Humane Method of Destroying Horses	684
Cleaning and Sorting Beans by Machinery	686
Teaching English Girls the Art of Milking	738
Branding Animals with a Clamp-Button Monogram	747
An Alarm-Clock Dinner Bell for Old Dobbin	779
An Automatic Grain-Valve to Prevent Waste	780
Tropical "Snow Drifts" of Cheesecloth	819
An Adjustable Steering Device for the Tractor	832
Sheep May Not Like This But It Saves Time	855
Separating the Rooster from His Crow	868
Warning Herdsmen of Storms	893
Are You Paying for Your Farm or Is It Paying for Itself?	893
Indoor Tomato Plants Fifteen Feet High	895
Valuable Products from Cherry Pits	895
An Anchored Hen House	912
Plans of a Small Modern Dairy Barn	960

ASTRONOMY

	Page
Curious Set of Features Are New Markings on Mars	225
Lost Comets	504
Is Jupiter Launching a Moon?	678
Studying the Stars with Mirrors	908

AUTOMOBILES AND ACCESSORIES

	Page
Automobile Scale-Demonstrator	6
A Duck-Boat as an Automobile Top	14
Portable Electric Tire-Inflator	26
Keeping Things Cold in a Real Automobile Refrigerator	27
A Record Motor-Truck Load of Barrels	27
How One Ford Got Up in the World	28
How Automobiles Innocently Break Windows	31
How an Automobile Engine Tests Water-Mains	48
What Make of Car Is It?	72
The Possibilities of the Ford Chassis	84–85
Semaphore Signals for Automobiles	114
Using Gates to Lessen Danger from Truck-Trailers	116
Lapping a Scored Automobile Engine Cylinder	124
A Handy Hook for the Automobilist	125
Trend of Motor-Truck Design Toward Worm Drive	159
An Air-Propelled Automobile for Three Dollars	173
The Reinforced Concrete Principle Applied to Automobile Tires	182
Automobiles, Motor Trucks and Accessories	186–189
Moving Guns with an Electric Battery Crane-Truck	231
Automatic Flagmen to Warn Motor-Car Drivers	242
A Gasoline-Electric Automobile	253
Lubricating Your Automobile	262
Starting Your Automobile with Ether	307
This Automobile Seat Serves as a Waiting Room	332
Economizing Gasoline for Automobiles	355
A Shim for Adjusting Plain Bearings	355
Automobiles, Motor-Trucks and Accessories	356–357
Fifteen Motor-Trucks in One	358
When the Horse Tops It Over the Automobile	360
Railroad Treads for Motor-Trucks	391
Motor-Trucks to the Rescue in a Freight Embargo	412
An Electric Motor-Chair	412
A Six-Wheel Automobile	430
Wiring the Ford for Magneto and Battery	442
Pumping Gasoline to the Motor	508
The Motorcycle Machine-Gun	529
Automobiles, Motor-Trucks and Accessories	540–543
"Troubleshooting" at Night	544
A Motor-Truck That Equals Two	545
The Wiles of the Automobile Thief	560
A New Gasoline-Motor-Driven Road Roller	561
Motoring on Roller-Skates	569
A Six-Mile Trip Through a Sewer on a Motor-Cycle	574
The Sidewalk Coaster Becomes an Automobile	592
Making Automobile Wheels Track Correctly	593
Quickly Adjustable Automobile Fan-Belt Fasteners	604
Loading Small Luggage on the Outside of the Car	605
How Piston-Ring Defects Have Been Overcome	605
Lightening Automobiles with Aluminum	606
Operating the Oil-Pump of an Automobile by Valve Action	615
A Watch-Carrier for the Motorcycle Handlebar	615
Easily Attached Shock-Absorber	618
How to Avoid Excessive Oiling in Cylinders	620
Spark-Plugs Tested Without Removal	621
A Washstand Light for Garages	645
Charging Weak Magnetos of Weak Automobiles	672
A New Brake Which Makes Trucks Safe	685
Rubber-Ball Fender to Protect Unwary Pedestrians	685
Recording the Vibrations of a Motor-Truck Spring	688
When You Leave the Automobile, Lock the Robes!	699
Automobiles, Motor-Trucks and Accessories	700–703
The Automobile Street Car	724
Breaking a Mountain Trail	740
A Motor-Wheel for the Railroad Velocipede	742
Automatic Word Signals for Automobiles	746

306063

	Page
Timing an Automobile Race	753
Backing an Automobile into a Moving Garage	755
Constructing a Sidecar for a Bicycle or Motorcycle	765
Fillers for the Pedal Slots of Automobiles	783
Lubricating Automobile Spring Shackles and Bolts	783
Estimating the Speed of Passing Automobiles	784
Making a Sediment Pocket in Feed Line to Carburetor	784
Caring for Storage Batteries on Automobiles	792
Novel Method of Drive for Light Cycle-Cars	806
Timing Automobile Speed Demons	806
A Wonderful New Glass Which Cannot Be Shattered	811
An Automatic Safety Fender Sets the Brakes	836
A Floating Road for Automobiles	864
The Intelligent Motor Milk-Wagon	869
Twelve Cylinders or Six in One Car	872
Plowing Snow with Your Automobile	882
Automobiles, Motor-Trucks and Accessories	888—891
An Automobile Pump Drive from the Rear Wheel	895
The Tiniest Motorcycle to Be Used in the Army	896
Preaching the Gospel from an Automobile	906
Tank Trucks as Tenders to Submarines	906
Testing the Strength of an Ostrich	907
A British Motor-Bus Run on Coal Gas	912
A Motor-Driven Brake	914
Wire Wheels for Automobiles	915
Combination Lamp and Horn for the Motorcycle	920
Automobile Carbureter for Heavy Fuel Oils	936

BOATING

Your Mainsail and the Wind	49
Forty Miles an Hour on the Water	83
How to Run a Motor-Boat	112

CHEMISTRY

Asphyxiating a Fire with Sulphur	884
Producing the Coldest Cold	916
A Quickly Made Silver-Plating Powder	937
How to Handle Sulphuric Acid with Safety	945

CIVIL ENGINEERING

The Destruction of the Exposition City	8–11
A Ticklish Moment	29
"Ironing Out" Earthquake Wrinkles in San Francisco	31
An Inverted Steam Hammer for Drawing Piles	53
Saving Hours in Handling New York Subway Dirt	54
An Excavator Which Walks	61
Electrifying the Clam-Shell Bucket	87
Making Water Pump Itself	98
A Damaged Lock Gate Repaired by Its Own Water	234
Lowering a Bridge Without Blocking the Traffic	240
Uncle Sam's New Dam at Elephant Butte	259
A Substantial Cableway Built from Scrap Material	327
The Senators' Subway	328
Bagging Rivet Heads with a Butterfly Net	333
Blowing Concrete into Place	411
Safeguarding the Sand Blaster	418
Building a Bank Around a Bank	485
Holding the Hudson at Bay	537
Road Construction Facts by the Wayside	544
Solving New York's Freight Problem	546
Ten Millions to Save Four Miles	553
Transforming a Beauty Spot into a Public Utility	574
A Bridge Five and One Half Miles Long	583
Strenuous Search for Durable Roads in a St. Louis Park	672
Giant Slabs of Marble to Commemorate Abraham Lincoln	689
Meerschaum as a Building Material in Spain	689
Boring Straight by Photography	720
Quebec's Disastrous Bridge	728
Cleaning Sewers from the Street	838
The Old-Fashioned Heavy Paving-Block Gives Place to a New Form	844
Taking the Temperature of a Dam	866

ELECTRICITY

Welding Soft Metal to Hard	17
The Voice Typewriter	65
An Exciter for Electroscopes	135
Interference of Lighting Circuit by Static Electricity	135
Rejuvenating Electric Lamps	135
A Wet Battery from a Dry One	135
Electric Striking Mechanism for Mission Clocks	137
An Electrically Operated Device for Lighting Gas	141
How to Make an Attachment-Plug	142
A Model Electrical Hammer	142
How to Make an Electric Shaving-Mug	143
Testing Electric Lamps Quickly	144
Using Cartridge Shells for Electrical Contacts	144
A Hoop with a Guiding Hub	152
Perfuming and Cooling the Air with An Electric Fan	175
The King of New York's Lighting Spectacles	177
A Tool for Buffing, Drilling and Grinding Metal Surfaces	192
Toying with High Tension Currents	248
A Home-Made Edison Battery	276
A Clever Window Display	277
Five Examples of Alarm Work	279
Rectifying Alternating Current	283
Making an Electric Fire Alarm	284
Cutting Glass-Tubing by Electricity	311
A One-Eyed Mechanical Stenographer	335
Why You Could Not Get Your Man on the Wire	371
An Electric Motor-Chair	412
A Convenient Arrangement for Turning on the Hall Light	442
Wiring the Ford for Magneto and Battery	442
A Simple Way to Construct a Ten-Ampere Shunt	443
Controlling Temperature and Humidity at the Same Time	444
Electric Substitute for the Latch-key	444
Making an Induction Coil	446
Magnet Winder	446
Dry Cells and Their Voltage	446
Utilizing Broken Marble Pieces	446
How to Rid Your Yard of Cats	447
To Stop the Milk Thief	447
A Simple Primary Coil	452
A Heat-Resisting Socket for High Wattage Lamps	511
Pocket-Flashlight Distress-Signals	520
A Hand-Magnet That Lifts Fifteen Times Its Own Weight	536
The Czar of the Power-House	555
A New Electric Cloth-Cutter for Small Shops	564
The Electrical Scrub-Woman—Brainless but Efficient	566
Small Electric Pump for Draining Seepage from a Cellar	567
A Voting Machine for Congress	582
Flood Lighting Niagara	584
The Night Eyes of the Coast Artillery	586
A Warning to Fishermen	590
A Photographic Printing-Box for Use with Electric Current	603
A Simple Tracing Method for Electrical Draftsmen	606
Tapping Field Telephone Wires	622
Tracing Initials on Tools with Electricity	632
Saving the Picture Show with a New Rheostat	633
A Combination Front and Back Door Alarm-Bell	634
Electric Burner for Making Storage-Battery Connections	634
To Change a Gas Lamp into an Electric Light	635
Lighting an Oil-Stove with an Alarm-Clock	635
A Simple Electrical Device for Purifying Water	638
Lifting Street Cars with a Powerful Electric Hoist	673
Electric Hand Lantern Costs Less than a Kerosene Burner	681
Electric Ranges Are Becoming Popular	681
Electrolytic Extraction of Gold from Black Sand	686
Look Out! Perhaps the Man You're Talking to Wears a Detectaphone	687
Protecting the Telephone Operator	706
Telegraphing Through the Ocean	711
Toys That Obey Your Voice	718
Miniature Magnet-Propelled Ships	737
Hearing Your Voice Through Your Bones	742
Manhole Ventilated with Electric Fan	748
Reducing the Furnace Man to a Mere Push-Button	751
A Magic Wand Which Changes Cold Water into Hot Almost Instantly	752
The Electric Thief-Catcher	756
How Electricity and Temperature Affect a Watch	761
A Hallowe'en Chamber of Horrors	777
An Improvised Coil Winder for Electrical Apparatus	787
A Home-Made Fuse for a Small Battery Current	793
Amateur Trench Electricians	794
A Danger Signal Used to Direct Attention to Overhead Perils	829

Page

An Extension Reel for Electric Lamps 843
An Electrically Heated Foot-Board for the Policeman 883
Determining the Intensity of Illumination by a New Measuring System 913
Making an Electrically Heated Soldering Iron 947
An Electric Burglar Alarm Attached to a Door-Lock 947
A Dead End Switch of the Multiple-Point Type .. 948
A Salt Water Polarity Indicator Made from a Burned-Out Fuse 952
An Electrically-Operated Recording Weather Vane 952
Operating Furnace Checks and Drafts by Electricity 954

HOUSEKEEPING MADE EASY

An Improved Vegetable Slicer 107
Housekeeping Made Easy 111
Why Young Girls Don't Leave Home 232–233
Keeping Food Without Ice 293
Make Your Own Lazy-Betty 299
Improving a Towel-Roller 301
String Holder and Cutter 306
Handy Folding Kitchen Tables 309
Housekeeping Made Easy 372–373
Cleaning Gloves Economically with Benzine 409
Converting Sun-Parlor into Bedroom 427
A Towel Holder 458
A Convenient Shoe-Rack 459
An Easily Constructed Holder for the Broom 468
A Screen Door-check 477
How Do You Sit? 551
Bathing in Your Trunk 557
Housekeeping Made Easy 558–559
Using the Steam Radiator to Remove Wall-Paper 564
The Electric Scrub-Woman—Brainless but Efficient 566
Trundling Your Washing-Machine on Wheels 566
Why Isn't This Used Instead of Hooks and Eyes? 575
Repairing Worn Wheels of a Carpet-Sweeper 601
A Scheme for Keeping Pictures Hanging Straight. 608
A Clothes-Rack for Use Indoors and Outdoors ... 603
Protecting the Gas Range with a Wind-Shield 618
Turning the Stationary Tub into an Electric Washing Machine 647
Electric Ranges Are Becoming Popular 681
Housekeeping Made Easy 690–691
Water-Heating Garbage Burner 698
Doing the Family Washing in Your Rocking Chair 738
The "Permanent Wave" of a Woman's Hair and Its Secret 743
Reducing the Furnace Man to a Mere Push-Button 751
A Comfortable Electric Foot-Warmer Pad 752
A Foot-Warmer Attachment for a Radiator 761
How to Straighten the Crooked Straws of a Broom 775
A Heater for Use Over the Flame of a Gas Jet or Kerosene Lamp 855
Housekeeping Made Easy ..... 858—859
Removing Old Starch from Clothes by a Malt Extract Bath 913

HOW THE WAR IS BEING FOUGHT

War Pictures 32–47
When the Fighting Man Dreams 53
Locating Guns by Delicate Earthquake-Detectors 178
Submarine Destroyers 180
War Pictures 208–223
Experimenting with Liquid Fire 208
Firing with Heavy Artillery at an Enemy You Can't See 226
War Pictures 336–351
The Wastage of Flying Machines in the Great War 377
"Shooting" a Photograph with a Pistol-Camera .. 408
A Modern War Relic 425
Fitting Penholders to Crippled Hands 435
War Pictures 487–495
How London Cares for Soldiers' Babies 502
How the Firing of Heavy Guns Affects Animals ... 576
Detecting Enemy Submarines from a Ship's Look-Out 579

INVENTIONS TO MAKE LIFE EASY

Adjustable Kettle-Cover 113
Hammer for One-Armed Man 113
Handling the Cord of Electric Irons 113
At Last! A Lock for Slipping Rubbers 113
A New Way of Directing the Breeze of a Fan 113
A Salt-Shaker Which Will Not Clog 113

Page

An Adjustable Golf-Tee Board 114
Combined Penholder and Blotter 114
Saw Cuts Square Hole 114
Semaphore Signals for Automobiles 114
Skinning the Slippery Eel 114
Why Fall Down in Your Bath-Tub? 114
At Last! A Machine Which Irons Skirts Without a Murmur 184
Keeping Cool with a Fan Driven by a Hot-Air Engine 246
A Fancy Shoe-Lace Cover 270
A Heater for the Parlor Lamp 270
Pipe Loaded from Stem 270
Automatic Roller Bearing 270
A Spoon That Can't Slip 270
Spout Attachment for Bottles 270
Aluminum Billiard Cue 271
Automobiling with a Bicycle 271
Beating the Dentist to It 271
A Cure for Butter Fingers 271
Facilitating Speed in Writing 271
A Swatter for High-Fliers 271
Shoes of Esparto Straw which Outwear Leather .. 375
Escaping the Barber's Fingers 432
Collapsible Tooth-Brush Case 432
Keeping the Baby's Bottle Just Right 432
A Pipe with a Cleaning Wick 432
A Detachable Massage Brush 432
A Mechanical Oyster-Opener 432
Holding Asparagus in the Can 433
Adding Dignity to Condensed Milk Cans 433
Putting Exhaust Gases to Work 433
Reducing Eye-Strain 433
Handle and Cover for Milk Bottles 433

MECHANICAL ENGINEERING

Revolving Portable Elevator 165
Coaling a Liner with An Elevator 206
A Giant Grinder Which Goes to Its Work 240
How Heat Is Measured with the Eye 330
New Kind of Lawn Sprinkler 332
Loading Guns by Pneumatic Tube 334
The Paving Blocks of Paris 352
Sorting and Packing Apples by Machinery 363
A Low Water Alarm for Boilers 370
Locomotive Runs Three Hours on Charge from Boiler Plant 370
A Typewriter Made Especially for the One-Armed 371
A Locomotive that Burns Pulverized Coal 376
Keeping Watch on the Chimney 378
The "Spinning Wheel" Gun 397
One of the Pranks of the San Francisco Earthquake 416
Why Not Make Rain Work? A Chance for a Rain Motor 419
Smoothing Sidewalks by Machine 426
The Preeminence of American Inventive Ingenuity 427
Belt Shifter Protects Workmen 434
A Curious Clock Built on a New Principle 511
Putting Wheels Under Workmen 514
Harnessing the Sun 515
A Machine-Shop in a Diving-Bell 577
Preventing Ships from Rolling with Fly Wheels ... 591
Cleaning Crown Bottle-Corks in a Portable Hopper 592
A High-Speed Bit That Bores Without Choking .. 647
Let a Puff of Air Do It 664
Air Is Stronger Than Arms 665
Dummies That Dance and Play 666
Dual Power, Portable Hoisting Machine of Compact Design 674
A Modern "Newspaper Maker" 676
A Simple Instrument Which Measures the Height of a Tree 696
To Protect the Fingers of the Woodworker 705
Combined Velocipede and Hobby-Horse 715
Felling Trees Automatically with a Mechanical Swordfish 715
A Water Curtain Used on a Heating Furnace 726
The Inventor of the Steam Engine Was Interested in Gim-Cracks 739
Saving Gold and Silver on the Vacuum-Cleaner Principle 750
This Ice-Cutting Machine Takes the Place of Eight Horse-Teams 810
Preventing Boiler Troubles by Mechanical Cleaning 811
An Adjustable Steering Device for the Tractor .. 832
A Mechanical Printer for Fac-Simile Letters 836

Page

A Machine for Cleaning Ceilings ... 841
An Unusually Intelligent Slot Machine ... 842
Mechanical Kinks ... 876—877
The Giant Destroyer of the Future ... 897

MEDICINE, SURGERY AND HYGIENE

What X-Rays Can Do for Your Teeth ... 20
Killing Vermin with Gas ... 119
Modern Methods for Exterminating the Mosquito 166
Soldier of Today Better Off Amid New Horrors ... 184
Eradication of Weeds Will Prevent Hay-Fever ... 238
How to Get Thin and Fool the Family ... 240
Chinese Doctors and Their Ways ... 243
War Will Diminish Stature and Vigor of Human Race ... 252
If Your Hand Is Too Small—Stretch It ... 361
Exterminating Mosquitoes ... 367
The Latest Answer to "What Is a Cold?" ... 374
Fighting Infantile Paralysis ... 399
Taking a Census of Occupational Diseases ... 486
A Mechanical Masseur That Works Off Fat ... 486
Have You Perchance a "Vocational Disease?" ... 519
Where Beautiful Hair Is Not a Crowning Glory ... 528
Eliminating One of the Tortures of the Dentist's Chair ... 534
How Do You Sit? ... 551
Sampling the Drinks for an Entire Large City ... 556
Steam Yourself and Drive Away Your Ills ... 575
Testing the Air-Fighter's Nerve ... 580
Mechanical Lungs for the Fire-Fighter ... 587
Some Peculiarities of Eye-Glasses ... 616
More Light on the Occupant of the Dentist's Chair 626
A Simple Electrical Device for Purifying Water ... 638
Measuring the Horsepower of That Baby of Yours 644
Exercising Machines for Wounded Soldiers ... 653
A Humane Method of Destroying Horses ... 684
New Apparatus for Setting Broken Limbs ... 684
Using the X-Ray on Animals ... 696
Defense for the Ears Against Noise and Shock ... 707
Resuscitating the Drowned ... 744
Lifting Invalids with a Minimum of Discomfort ... 746
Why Do We Grow Bald? ... 812
New Cures at the Royal Baths in England ... 818
Making Air Fit to Breathe ... 833
Medicinal Cartridge-Belt for Peaceful Expeditions 849
A Device Invented by a Blind Doctor to Enable Himself to Write Letters ... 849
Humanity's Bent Twigs ... 850
Corns—What They Are and Why They Hurt ... 857
The Medicinal and Hygienic Virtues of the Lemon 863
The Cancer Problem ... 873
Friction Tape Used for Plaster Strips ... 925

MINING

Steaming Frozen Ground for Gold ... 687
Coal-Mine Fatalities in the United States During the Year 1915 ... 696

NATURAL SCIENCE

How Fish Jump 100-Foot Dams ... 364
Borrowing the Night Lamps of the Fireflies ... 365
Why Whiskers Continue to Be in Style for Cats ... 369
Fishing in Guiana with the Bow and Arrow ... 385
When Manicuring Nails Is a Dangerous Job ... 410
Rocking Stones and Their Romantic Story ... 413
Even the Hornets Have New Ideas Sometimes ... 417
Exploiting the Island of Laysan for the Eggs of the Albatross ... 428–429
The Reason Why We Have Two Eyes ... 434
Insect Grotesques ... 496–497
When Nature Plays the Architect ... 498–499
Freak Trees. How Did They Happen? ... 512
A Curious Egg Shaped Like a Dumb-Bell ... 513
A Slab of Sandstone Seventy-Five Million Years Old ... 513
Would You Recognize the Ear-Bone of a Whale If You Saw One? ... 513
Why the Color of Sea Water Is Blue or Green ... 522
Crossing Dangerous Rivers with Goatskin Floats ... 528
A Magician Among the Fishes ... 562
The Strange Vegetable Sheep of Peru ... 563
Why You Hear Well on a Clear, Frosty Night ... 646
Weather Bureau Duties Overlooked in Criticising the Weather Prophet ... 647
The Tree Warfare Against Rocks ... 650
The Traveler's Tree ... 651
A Fish That Builds a Nest Like a Bird ... 654

Page

The Great Hoodoo Temple ... 655
When Rain, Thunder and Lightning Start Toward the Earth at the Same Time ... 674
The Deepest Known Place in the Ocean ... 683
Nature and Not Cannons the Cause of Rainfall ... 744
Queer Denizens of the Deep ... 822
Is This the Origin of Forcible Feeding? ... 823
As a Packer Let Us Recommend Mother Nature ... 826
Not Candy but Moth and Butterfly Eggs ... 827
Iridescent Fish-Eggs for Table Decoration ... 875
"Great Fleas Have Little Fleas Upon Their Backs to Bite 'Em" ... 875
Why Does Sap Rise Against Gravity? ... 886

PHOTOGRAPHY AND MOTION-PICTURES

As Easily Handled as a Rifle ... 77
Seeing the Unseen ... 89
Photography in Natural Colors ... 102
A Dark-Room Lamp ... 120
How to Photograph Wild Animals ... 136
Catastrophes by the Foot ... 163
Comic Insect Photography ... 191
A Photographic Eye for the Airman ... 202
Washington Monument as a Motion-Picture Screen 354
Staging the Celluloid Thriller ... 401
An X-Ray Tilting Table ... 407
"Shooting" a Photograph with a Pistol-Camera ... 408
Pendulum for the Dark Room ... 460
An Improvised Reflecting-Camera ... 460
Novel Device for Copying Pictures ... 460
Home-Made Camera Shutter ... 461
A Useful Trimming Board ... 461
Simple Test of Shutter Speed ... 461
Cheap Photographic Changing Box ... 473
Wild Animals That Photograph Themselves ... 483
Preserving the Orchestra Leader's Art ... 535
Drying Negatives by Heat from a Kerosene Lamp 602
A Photographic Printing-Box for Use with Electric Current ... 603
Saving the Picture Show with a New Rheostat ... 633
Using the X-Ray on Animals ... 696
A Daylight Developing-Tank ... 716
Boring Straight by Photography ... 720
Making the Music Fit the Movie ... 733
"Shooting" Birds with a Camera ... 741
Eight Pictures on One Plate ... 856
Photographic Printing Masks Easily Made ... 931
A Dark-Room Lamp to Be Used Under a Glass Tray ... 934

PICTURE PAGES

A Tree Like the Rock Which Moses Smote ... 651
Exercising Machines for Wounded Soldiers ... 653
A Fish that Builds a Nest Like a Bird ... 654
The Great Hoodoo Temple ... 655
Where Germany Gets Her Basalt Paving Blocks ... 656
Relics of Indian Superstition ... 658
Curious Clocks of Paris ... 659
A Great Collapsible Field Periscope ... 660
Watching a Battle Through a Super-Periscope ... 661
The Largest Duck Farm in the World ... 652–653
Let a Puff of Air Do It ... 664
Air Is Stronger Than Human Arms ... 665
A Modern "Newspaper Maker" ... 676
Using the Telephone on the Rifle Range ... 682
Scenes in Alaska ... 814—815
Marooned by the Tide at West Australia ... 816
Trapshooting in the Navy ... 817
New Cures at the Royal Baths in England ... 818
Tropical "Snow Drifts" of Cheesecloth ... 819
Food Freaks ... 820—821
Queer Denizens of the Deep ... 822
Is This the Origin of Forcible Feeding? ... 823
Fighting Weapons of Seven Warring Powers ... 824
Aeroplane Art of To-day ... 825
As a Packer Let Us Recommend Mother Nature ... 826
Not Candy but Moth and Butterfly Eggs ... 827
Japanese Ivory Carvers Use Modern Tools ... 828

PRACTICAL WORKERS DEPARTMENT

How to Make an Efficient Boiler-Patch ... 117
An Easily Made Mercurial Barometer ... 118
A Handy One-Drop Oiler ... 120
A Non-Spillable Funnel ... 120
Rubbing in the Lathe ... 120
An All-Steel Screwdriver ... 121
A Buck-Saw Attachment ... 121

	Page
How to Etch Glass	121
Bonding Joists to Brick Walls	122
A Drainage Kink	122
Emergency Control of Motor	122
A Screwdriver Handle	122
Replacing Automobile Piston-Rings	123
Steam as a Carbon Remover	123
A Gasoline Tank Gage	124
Simple Cure for Misfiring at Low Engine Speeds	125
Building an Oil Reservoir	126
Emptying a Bottle	126
One Geared Motor Serves Two Drives	126
A Pocket-Clip for Pencils	126
An Emergency Fountain Pen	130
Making a Two-Fuse Switchblock	130
Converting a Key-Socket into a Pull-Socket	136
Making a Washing Machine from a Barrel	147
